Profile

I'm an aspiring computer science student with a passion for technology, problem-solving, and innovation. I'm eager to explore various areas of software development, including AI. As I continue my journey in computer science, I'm excited to gain hands-on experience, collaborate on projects, and discover the path that best aligns with my interests and skills.

Education

B.Tech Computer Science Degree, Rajagiri School of Engineering and Technology

- **Expected Graduation:** 2026
- **Relevant Coursework:**
 - a. Computer Networks
 - b. Operating Systems
 - c. Data Structures
 - d. Algorithm Analysis and Design
 - e. Formal Language and Automata Theory

Class XII (CBSE), Indian School Al Wadi Al Kabir, Muscat, Sultanate of Oman

- **Year of Completion:** 2022
- **Percentage/CGPA:** 83 %

Class X (CBSE), Indian School Al Wadi Al Kabir, Muscat, Sultanate of Oman

- **Year of Completion:** 2020
- **Percentage/CGPA:** 91 %

Projects

Rems

- Built an Event Management System for college as a group of 4 using HTML CSS and JavaScript that implements a dashboard of on-going and upcoming events, scheduling events for students. For visiting the site, please go to <https://rems.hopto.org>

Green-Up

- Developed a community waste management app that aims to connect volunteers with local clean-up events, incentivised through rewards.

Portfolio

- Built a portfolio website using HTML and CSS.

Asteroid Impact Visualizer

- Made an interactive web simulation that models asteroid-Earth collision dynamics using real NASA NEO data. Built the frontend architecture in React + Three.js. For visiting the site, please go to <https://nexus101.netlify.app>

Technical Skills

HTML & CSS

Python

C

Java

Database Management

Languages Known

English

Hindi

Malayalam

Soft Skills

- Time Management
- Adaptability
- Well Organized
- Interpersonal Communication
- Active Listening

Internships

- ***Full Stack Web Developer Intern (Nov 2024 - Dec 2024)***

📍 **Krutanic Solutions, Bangalore, India**

Did a remote internship where I received training in Front-End and Back-End Web Development. Built web applications using html, css, javascript and used frameworks like react and used mongodb as a database.

- ***Automation and Control Systems Intern (May 2025 - Jun 2025)***

📍 **Spectrum Technical Services LLC, Muscat, Oman**

Learned about industrial systems including SCADA, PI Server, RTUs, Access Control, and LAN/CCTV architectures through guided sessions and internal presentations and collaborated with engineers and supervisors to prepare technical documentation and presentation materials for in-house systems and project workflows.
